Greetings!

My name is Mike Akins, and I would like to take a few minutes to have a heart-to-heart talk with you. I believe this could make a difference in your life and a great number of lives throughout the world.

One thing we all have in common is a desire to have good health. For years I have been dedicated to helping people improve their health. In my worldwide search for the latest in technological developments, I have found a breakthrough in health-science unlike anything I have ever seen in my 35-year career. Scientists and medical professionals from over 70 nations have been researching this phenomenon for several decades. Yet only recently has technology advanced to a point that this remarkable discovery is now commercially available to the public.

Many prominent medical professionals believe this discovery—called Transfer Factors—is the most significant breakthrough in achieving good health in the past century. You will hear from a number of these prominent authorities in this booklet. \$40 million dollars was invested in research to

Many medical professionals firmly believe this breakthrough is among the single greatest discoveries of the last century.

Many medical professionals firmly believe this breakthrough is among the single greatest discoveries of the last century.

Powerful testimonials from both the medical world and consumers are pouring in from all corners of the globe about Transfer Factors, yet the vast majority of people have no idea about this wonderful discovery.

It is my sincerest wish that you will take a few short minutes to educate yourself on this worldwide phenomenon, and that the information enclosed will help you decide how to best enhance the existence—both physically, and if you are interested, financially—of yourself and your loved ones.

Sincerely,

Mike Akins

Are you in touch with the health crisis we face in the United States and throughout the world?

- Autoimmunity, a condition in which the body's immune system fights its own organs and tissues, is the major cause of serious chronic diseases.
- Someone who appears healthy can suffer from an overworked and depleted immune system. We all face more health-related stresses than ever before due to increased pollution and a multitude of other challenges to our immune system.
- Approximately 50 million Americans—20% of the population—suffer from at least one of the more than 80 known autoimmune diseases. These diseases include lupus, Type 1 diabetes, scleroderma, multiple sclerosis, Crohn's disease, chronic hepatitis, rheumatoid arthritis, Graves disease. The list goes on and on.
- The Centers for Disease Control and Prevention (CDC) reports that 160,000 Americans die annually with an infectious disease as the underlying cause.
- More than one million people die of coronary heart disease annually.
- Cancer is the 2nd leading cause of death, claiming more than one million lives annually.

Fact: There is more chronic disease now than there ever has been in the history of mankind.

Question: Why do some people get these infections that lead to disease while others do not?

The answer is closely tied to the effectiveness of the immune

system. Medical professionals are finding that the immune system is connected to just about every aspect of your body and mind.

- According to hundreds of medical reports, the majority of the population is suffering from too low a level of immune efficiency. This means that in many cases the body's beneficial natural killer cell function is not operating at an optimal level.
- A study conducted by the Satomo Study Group in Japan shows that a person with high natural killer cell activity is less likely to develop cancer than someone with low natural killer cell activity.
- Poorly functioning immune systems ultimately affect every part of the body. Even your energy levels and how well you age are connected to your immune system.

People Are Experiencing Remarkable Immune Boosting Results with Transfer Factors.

Scientists from Harvard University and Columbia University shocked the world of cardiologists when they revealed in a recent issue of *Scientific American* that heart disease was actually a result of a dysfunctional immune system.

For the past several decades, cardiologists believed that heart disease was a result of cholesterol building up within the artery channel.

Now they know that heart disease is the immune system's reaction to an infection and cholesterol within the lining of the artery.

Healthy People Are Developing Heart Disease and Cancer.

The discovery that heart disease originates with the immune system explains why heart disease has been on the rise despite increased exercise and lower fat diets.

It has been estimated that 66 million people suffer from some kind of cardiovascular condition.

Transfer Factors target this recently discovered cause of heart disease.

SARS, Mad Cow Disease, Bird Flu... New Diseases Challenge the Immune System.

The benefits of a well-educated and balanced immune system cannot be overestimated. Transfer Factors bring more education and a superior regulatory capability to the immune system. Transfer Factors represent a new step forward in science. No other nutrient can do what Transfer Factors can do!

ROB ROBERTSON, M.D.

Former Director of Emergency Services at Western Baptist Hospital in Paducah, Kentucky.

I spend most every day hearing Transfer Factors testimonials concerning things like middle and external ear infections, bronchitis, chronic lung disease, emphysema, influenza (flu), and common colds.

In 1926 a medical breakthrough was made with the discovery of Penicillin. In 1952 we had another momentous breakthrough with the discovery of the Polio vaccine. Now... we have what I believe is an even greater breakthrough product, Transfer Factors.

Hundreds of Doctors and Scientists Endorse the Science Behind “Transfer Factors.”

Our in-house team of research scientists consists of some of the best in the world. One of our scientists is the ONLY non-Russian researcher to receive the honor of being accepted into the Russian Academy of Scientists.

What Exactly ARE Targeted Transfer Factors?

Transfer Factors exist in your immune system. They are the "intelligence" of your immune system. They are peptides that consist of a chain of amino acids. The chain of amino acids functions as an alphabet, changing its sequence to store information.

Transfer Factors store information on foreign threats that may enter the body, such as bacteria, viruses, fungi and parasites. Transfer Factors also inspect our own cells looking for mutated cells such as cancer cells.

The human immune system is not prepared to handle everything thrown at it. Stress, pollution, mutated germs and other factors can affect the immune system. When a person's immune system isn't working effectively, that person is more likely to develop allergies, autoimmune conditions, cancers and a number of other diseases.

DUANE TOWNSEND, M.D.
Cancer Physician

Dr. Townsend has had more than 32 years of distinguished experience in the medical field. He pioneered a surgical technique for the treatment of pre-malignant disease of the uterine cervix. Dr. Townsend has authored more than 90 scientific papers in peer review journals as well as over 15 chapters in research books.

I'm a cancer physician. I primarily treat female cancer and certainly encourage my patients who are undergoing chemotherapy and radiation therapy to take Transfer Factors. It helps to balance the immune system.

I have patients with chronic herpes infections who are taking Transfer Factors on a regular basis, and it is reducing the number of outbreaks. I've also had patients with chronic yeast infections, and Transfer Factors have reduced their infections as well.

Transfer Factors are a science-based product with data from a variety of researchers.

Transfer Factors Help Boost Immune System Intelligence.

Transfer Factors manage other factors in the immune system. The transfer factor “soup” contains inducers that boost the immune system and suppressors that calm (or modulate) the immune system down.

Suppressors are very important in maintaining your overall health. When germs enter the body or a mutated cell becomes cancerous, the Transfer Factor, which serves as the “brain” of the immune system, carefully guides the beneficial “combat” immune cells to the target and then activates the “combat” cells to destroy the target. After a successful battle, suppressor cells, through a biofeedback mechanism, remove the “combat” cells from the battle.

Transfer Factors Strengthen and Balance Your Immune System.

Scientists have found that animals have the same structured Transfer Factors as humans. Animal Transfer Factors, however, are much more experienced and effective than human Transfer Factors. A mother animal passes her Transfer Factors down to her children.

Our scientists have unearthed and patented a process by which Transfer Factors can be isolated and extracted. When we consume these Transfer Factors, we take on the superior capabilities of the animal's Transfer Factors.

DAVID MARKOWITZ, M.D.

Kennebunk, Maine

A general pediatrician for more than 20 years.

I believe Transfer Factors are, without a doubt, the greatest discovery of the century. Balancing the immune system will be the primary way to stay well in the future. This nutrient can affect the immune system like nothing else can. Everyone needs to consume Transfer Factors.

I have now completed a retrospective study comparing children in our practice who did not use Transfer Factors during the same period. 87 children, ages 8 months through 9 years, used Transfer Factors. We found 74% less reported illness and 84% less reported use of antibiotics.

A child in my care with a type of muscular dystrophy had a serious bout of bronchitis. 72 hours on Transfer Factors cleared her breathing pathway completely.

I find that children in my care are thriving with Transfer Factors. I have seen success with middle ear infections, upper respiratory infections and several other repeated infections.

Transfer Factors are all-natural and have been found to be completely safe. Transfer Factors will not interfere with medications.

Protect Yourself and Your Loved Ones!

- Our product contains the most scientifically advanced, naturally bioengineered nutrient in the world.
- Transfer Factors are so versatile that they can affect every area of your health.
- It is not a vitamin, mineral, herb or antibody. It is a breakthrough nutrient supported by hundreds of medical professionals and thousands of satisfied consumers worldwide.
- The benefits of increasing the intelligence of the immune system go far beyond fighting germs.
- Transfer Factors have been under research for four decades, but only recently has technology advanced enough for science to investigate its full potential.
- CNN recently reported on an Alzheimer's disease study. A vaccine for Alzheimer's patients has been successfully tested on the mice model. This vaccine was found to remove plaque from the brains of the mice. It hasn't yet been proven in studies on humans, but the indications are promising.
- Imagine what the full potential of Transfer Factors could be!

MAGNUS 'T. IBN ALE, M.D., C.M.
Obstetrician / Gynecologist

Dr. Magnus is a member of the Royal College of Obstetricians and Gynecologists (M.R.C.O.G.), London, England. He is also a Fellow of the American College of Obstetricians and Gynecologists (F.A.C.O.G.). He has been in practice for over 25 years.

I have seen first-hand the deadly consequences of the emergence of flesh-eating super-germs, now resistant to most of the antibiotics which were once successfully used against them. The abuse, unnecessary use and overuse of antibiotics over the years, have contributed to this life threatening development.

One thing we can all do, however, is boost and modulate our immune systems to help protect, defend and help our body to heal itself. I believe that Transfer Factors are true immune system modulators. I have decided not only to use Transfer Factor products but to also tell others about them.

A Few of the Hundreds of Testimonials Flooding in from Ordinary People Everywhere:

Esther Davis

I am now 78 years young. Approximately 10 years ago my health started going downhill. I thought my life was over. I developed some kind of autoimmune condition. My feet burned and unbearable pain ran up my legs. The doctor had me on morphine. Also pain gripped my hands to the point that I couldn't hold a coffee cup. I could not even make it up the three steps on my front porch. My blood sugar was well over 200. I had no energy. My doctors had helped me all they could. I was on several medications. My son placed me on Transfer Factors. Six months later I was off the morphine with no pain. In time my blood sugar dropped more than 100 points. I feel great!

Charles Davis

I spent a great deal of my life in the sun. I am 74-years old. Over a period of a few years, I had more than a dozen pre-cancer spots cut off my face. Since I have been on Transfer Factors now for three years, I haven't had any more spots cut off.

Marsha S.

For five years I was on antibiotics for severe acne and still broke out 20%. After 6 weeks on Transfer Factors, my acne completely cleared up. My dermatologist was amazed!

Kay Bergen

I suffered from the symptoms of fibromyalgia, arthritis and chronic fatigue syndrome. I have tried other nutrients with a degree of success. After consuming Transfer Factors for a couple of months, my symptoms decreased by at least 50%. Now, after six months, I am virtually symptom-free!

Denise Moore

I developed a type of arthritis in my hands. My joints began swelling and twisting. The pain was unbearable. As long as I stay on Transfer Factors, I am fine.

*All testimonies by individuals and physicians are provided to you for general information for your consideration. If you are ill we encourage you to see a physician. We do not encourage you to replace traditional medical therapy with our products. Our products are promoted as being able to improve your immune system function, which we believe will lead to a better overall health condition. These statements have not been evaluated by the FDA.

For Years Mike Akins Has Been Dedicated to Helping Ordinary People Gain Both Health and Financial Success.

I am so honored to be able to share with you the remarkable scientific breakthrough of Transfer Factors. The staggering number of testimonies from doctors, scientists and other medical professionals about the health benefits of Transfer Factors is simply amazing. The constant deluge of testimonies from people all over the world who have experienced profound health benefits from Transfer Factors demonstrates that the power of this revolutionary breakthrough in health science cannot be overstated.

As stated previously by Dr. Markowitz and Dr. Robertson, Transfer Factors are the most important medical discovery of the century.

The purpose of this booklet is actually two-fold:

1. I wanted to share with you the science behind Transfer Factors, including the research and analysis that is supported by legions of medical professionals spanning the globe. How Would It Change Your Life To Have The Money You Want Along With Great Health?

I have been helping people succeed now for more than 30 years. I have the experience to help you. Presently there are more than 100,000 individuals in my success group. A trade journal recently honored me as the "greatest networker in the world."

Naturally, I was humbled (and more than a little embarrassed) by the title, but I am not naive enough to actually believe that I, alone, am solely responsible for the wonderful financial success I—and so many others—have enjoyed over these past years.

The truth is I am surrounded by the most talented, dedicated and selfless colleagues in the industry. Together, we have built the greatest support system in the industry.

Our shared mission for the last three decades:

To help as many people as is humanly possible achieve the greatest levels of financial security and physical well-being possible in the shortest amount of time.

Based in Hutchinson, Kansas, my company, Professional Networkers, is the largest support group of its kind on the planet. We have 30 professionals working to help each and every person in our group. We have had great success over the past few decades.

We understand that the average person is not a trained salesperson and is uncomfortable with rejection. This is where my staff and I come in! We have developed systems and support to match any and all levels of inexperience, experience or skill.

Residual incomes from a few hundred dollars to substantial 5-figure monthly incomes have been achieved in 3-24 months. My full-time staff of experienced professionals will assist you in building your business. This system creates a residual income in a fun, exciting and easy-to-understand business that is all yours!

My staff and I are continuously refining strategies, marketing systems and tools in order to give each member the very best possible chance to achieve their full potential. If you are a beginner, you will find help and support at every step along the way.

These Proven Market-Tested Systems Can Be Started in Minutes!

SELF-MAILING BOOKLETS: At the lowest experience levels, you may mail booklets just like this one to nutrition-minded consumers and opportunity seekers. We will show you where to find these people. You may also hand them out or drop a stack in a well-traveled area. Often customers and distributors will enroll or order directly from this booklet! And every time they order - you earn a healthy commission!

INTERNET MARKETING: If you would like to market on the Internet, we have a full-time Internet Marketing Department to back you up. You'll get FREE websites and training.

Many people that join Mike's team become lifetime friends; many have been with him for as long as 30 years.

Art Lacoste

I highly encourage anybody looking for a legitimate opportunity to make serious money to give this a try. Mike Akins and the staff at Professional Networkers are—by far—the best support organization in the world. I have never seen anybody in any business who operates with higher standards of ethics and integrity than Mike Akins.

I know Mike's systems work because they are working for me and many other people right now. Becoming part of this incredible team could be the best financial decision of your life.

Naomi Jackson

My name is Naomi Jackson. I met Mike Akins over 20 years ago and have seen first-hand the profound changes thousands of people have experienced thanks to Mike's undying passion to improve the quality of life for everyone he comes in contact with. No one else in the history of this industry has ever been known to provide the kind of assistance that Mike Akins does!

Miguel Correa

I was 24-years old and had just moved here from Ecuador. I worked hard and followed their plan of action. Within three months, I developed a residual income of \$1,700 per month. Now, in less than a year, I have a \$6,000 residual monthly income.

Richard Talkington

The personal growth I am gaining with Professional Networkers exceeds that of my prior experiences. This opportunity has provided me with a financial opportunity with no ceiling and a very satisfying experience helping many others within our organization.

This is a once in a lifetime experience for me. It is not often that all of the elements and factors that cause a business to be especially outstanding come together at the same time. I know I am in the right place at the right time.

Dick Helgeland

I have been in this industry for 13 years, and

never experienced the success that I am experiencing now by following Mike Akins' business plan.

My employment experience includes: Lieutenant Commander in Naval Intelligence; Corporate Liaison to Congressional Investigators; Corporate Director.

Mike Akins' support group, Professional Networkers, coupled with the health-related significance of 4Life Research's Transfer Factor product line, is a very strong business combination.
